ALWAYS SOMETHING NEW,

STILL SOMETHING WHICH HAS STOOD THE TEST OF YEARS,

And still grows MORE AND MORE POPULAR EVERY DAY.

IT Is PROFESSOR WOOD'S HAIR RESTORATIVE.

See what others say of it. A distinguished St. Louis Physicis

Sr. Louis, July 10, 1860.

O. J. Wood, Esq. - Dear Sir: Allow me the pleasure and satis. faction to transmit you the beneficial effects of your Hair Restor-stive after a trial of five years. I commenced using your Restor-stive in January, 1855, since which time I have not been without a bottle on hand. When I commenced the use, my hair was quite thin, and at least one-third gray. A few applications stopped its falling, and in three weeks time there was not a gray hair to be found, neither has there been up to this time.

After my hair was completely restored, I continued its use by applying two or three times per month. My hair has ever continued healthy, soft and glossy, and my scalp perfectly free from dandruff. I do not imagine the facts above mentioned will be a sny particular advantage to you, or even flatter your vanity at this late day, as I am well aware they are all well known already, and even more wonderful ones throughout the Union. I have occupied my time in traveling the greater part of the time the pest three years, and have taken pride and pleasure in recom-mending your Restorative and exhibiting its effects in my own case. In several instances I have met with people that have pro-nounced it a humbug: saying they had used it and without effect. neunced it a humany; saying they are the matter, that they had not used your article at all, but had used some new article, said to be as good as yours, and selling at about half the price. I have noticed two or three articles myself advertised as above, which I have no doubt are humbugs. It is astonishing

hat people will patrentze an article of no reputation, when there is one at hand that has been proved beyond a doubt.

Apparently, some of those charlatans have not brains enough to write an advertisement, as I notice they have copied yours. word for word in several instances—merely inserting some other

I have, within the past five years, seen and talked with more than two thousand persons that have used your preparation with perfect success; some for baldness, gray hair, scald head, den-truff, and every disease the scalp and head are subject to. I called to see you personally at your original place of busines

here, but learned you were now living in New-York. You are at liberty to publish this or to refer parties to me. Any communication addressed to me, care of box No. 1,920, will be Yours, truly, gromptly answered. JAMES WHITE, M. D.

WARREN SPRINGS, Perry Co., Pa., June 7, 1850. PROP. Wood. - Dear Sir: I was induced more than a year ago te try your valuable Hair Restorative, for the purpose of cleans tag my head of dandruff. I had suffered with it upon my head for years, said had never been able to get anything to do me any good in removing it, although I had tried many preparations, un-til I saw your advertisement in a Harrisburg paper. Being s at the time, I called at Gross & Kunkle's Drug Store, and bought a bottle, and now am prepared to recommend it to uni-versal use, for it has completely removed all dandruff from my head, and an application once in two weeks keeps it free from any itching or other unpleasantness. I must also state that my hair had become quite white in places, and, by the use of you<sup>r</sup> preparation, has become restored to its original color. I am now fifty years of age, and although I have used two buttles of the Retive, no one has any knowledge of it, as I allow a few gray bairs to remain, is order to have my appearance comport with my age. My head is now of less trouble to me, in keeping it esan, &c., than at any time since I have been a child. I consider your preparation of great value, and although I do not like to expose myself, I consider it my daty to say so. You can use or any part of it, in any shape you think proper, if it i,

worth anything to you. Yours, &c.,

BLOOMINGTON, Ind., July 30, 1859. DEAR SIR: I here send you a statement that I think you are suffiled to the benefit of. I am a resident of Bloomington, and ave been for over thirty years. I am now over 50 years of agn. For about twenty years past my hair has been turning considers bly gray, and was almost entirely white end very stiff and un at. I had seen a number of certificates of the very wonderfu, effect of your Hair Restorative, but supposed there was more fit tion than truth in them; but entertaining a strong desire to have my hair, if possible, restored to its original color and fineness, as my hair, it possine, records to the distribution of the way in my younger days a beautiful black. I concluded I would make the experiment, commencing in a small way. I purchased one of your small bottles, at one dollar, and commenced using following directions as nextry as I could. I soon discovered the dandruff removed, and my hair, that was falling off in large quantities, was considerably tightened, and a radical change taking place in the color. I have continued to use it till I have used three of your small bottles and just began on the fourth. I have now as pretty a head of dark brown, or light black, hair as any man, or as I had in my youthful days, when a boy in the hills of Western Virginia. My head is entirely clear of dandruff, and the heir consed entirely falling off, and is so soft and fine, and feels as ofly as shough it was just from under the hands of a French sham power. Many of my acquaintances frequently say to me, "Butler, where did you get that fine wig!" I tell them it was the effects of your Restorative. It is almost impossible to convince them that it is the original hair of the same old gray head.

Yours, truly. FREDERICK T. BUTLER.

PROF. O. J. WOOD,-Prof. Wood's Hair Restorative is be oming universally known to the inhabitants of the whole world. coming universally known to the inhabitants of the whole world, But a few years ago it was the study of the most scientific chem-ists to find out something beneficial to the human bair. We are satisfied that the gentleman whose name heads this article, is en-titled to the honor of having first introduced such an invaluable remedy for the prevention of becoming hald, restoring hair to its original color, &c., &c. Read his advertisement in another coloma. - [Romeo, Mich., Argus, May 5, 138.

WOOD'S HAIR RESTORATIVE .- We are not in the habit of pulling every new discovery, for nine cases out of ten they are quark mostrums, but we take great pleasure in recommending Professor Wood's article to all whose bair is falling off, or turning gray. Our well-known Contributor, Finley Johnson, esq., has experienced the benefits of its application, and joins with us in speaking of its virtues. Let all try it—and bald heads will be as rare as snow in Summer.—[Baltimore Patriot.

WOOD'S HAIR RESTORATIVE .- Unlike most specifica, this is proved by unimpeachable evidence to possess great efficacy as a restorer of the heir to its pristine vigor. Where the head had become almost hald because of sickness, the use of thi article has produced a beautiful growth of thick, glossy hair. It is, therefore, a valuable preparation for all classes. Its ingredients are such as to effectually eradica's dandruff and other impuents are such as to enectuany eranges cannot and other apprinties which operate so injuriously to the hair. It also has curative properties of another description. In many cases pimples and other disfigurements of the skin disappear wherever it is used. There is no hazard attaching to the trial of this remedy, and t a effects can only be beneficial, as the compound, if it does not cause a manifest improvement, is incapable of doing harm, as its component elements are perfectly innoxious.—[Boston Transpript, April 22, 1859.

A GENUINE BOON .- In our capacity as conductor of a pub. iic journal we are called upon to advertise the cure alls of the day, each of which claims to be unadulterated in its composition and infailible in its curative effects - with what justice we leave our readers to determine. In one instance, however-Prof. Wood's Hair Restorative—we are so well assured of the nojable qualities of the article that we give it our indorsement as all that its inventor and vender claims it to be. Its effect upon a falling head of hair is universally known to be magical; like lime or guano on exhausted land, it brings its crop wherever applied. Our own thatch is fortunately healthy, but we advise our friends with sparsely-growing bair to try the Restorative.-[Columbia

ALL HAIR DYES ABANDONED-WOOD'S GREAT AR ALL HAIR DYES ABARDONED—WOOD'S GREAT AR TICLE HAS TAKEN THE FIELD.—Professor Wood stands apon an eminence no chemist, whose attention has been turned to inventing a hair tonic, has ever before reached. His fame a andden but world-wide, and thousands who have worn wigs or been bald for years are now, through the use of his preparation, wearing their own natural and luxuriant head covering. So much for chemistry, the chemistry of human life, and the laws which apply to the functions of the system. Professor Weed studied out the human hair, its character, its properties, its diseases, and how to restore the decaying vitality of that ornament, he saw, in his own case, that grey hair is unnatural unless the age of the ludividual had reached four score, and he believed that the hair could be naturally revitalized. He tried his own case—almost bald and quite gray at the age of thirty-seven—he restored his own hair in color, strength and luxuriance, and the article he it with he gave to the world. Get Wood's Hair Restorative, and take nothing else. - [New York Day Book.

At No. 44 Broadway will be found always on band all the goguine family and Patent Medicines.

A DVICE GRATIS.

it should be the aim of a newspaper to become acquainted with the improvements and discoveries of the day, and to call useful to them. In all such cases its conductors should feel as strictly bound in honor to speak in a candid and truthful manner as if conversing with an intimate friend. We have heretofore recommended MRS. WINSLOW'S SOOTHING SYRUP for believe it is of more importance to mothers and their children than any other discovery made by the profession in the last hundred years. A very large percentage of children annually die during the process of teething, and a much larger number of those for study and labor. Now, we appeal with perfect confidence to thousands of mothers who will read this article, to corroborate those we have alluded to ever occur from teething, when MRS.

upon our suggestion, and have thanked us for it. Still there are many thorsands of mothers who read our paper, who, from prejhest female physicians the world ever produced; and is just THE REMEDY NEEDED by every mother who has a child teething. It softens the gums, reduces inflammation, allays all pain and spas-MAPE—no possible harm can come of its use, according to the directions which accompany each bottle. We speak thus confihave made use of it for years, and we have witnessed the most happy results from its use in hundreds of cases. If you never before had faith in a female physician, our word for it, you will have, after using the Soothing Syrup. Try it. Twenty-five cents will purchase a bottle. It is, therefore, within reach of t poor as well as the rich.-[N. Y. Ladies' Visitor.

There is an advertisement in this number of our paper, to which we wish to call your special attention. We do so, not because we are paid for doing it-for the proprietor has not so much as requested us to do so-but from the fact that we sincerely believe it deeply interests you and your children to know what is there communicated. We refer to thirty years' experience of a female physician in the shape of MRS. WINSLOW'S SOOTHING

Tens of thousands of children die yearly during the process of CUTTING teeth; and hundreds of thousands barely escape death, to pass a life of suffering, diseased in body and enfeebled in mind —ell of which results from a disorganization of the system during the process of teething. Mrs. Winslow, in her profession, had an opportunity to witness much of this suffering, and has prepared a medicine to meet the case-simple, yet perfectly effective and sure. JUST THE REMEDY NEEDED. WE KNOW it acts like magic, giving almost instant relief to the

little sufferer-having witnessed the most pleasing results from the use of it in a great number of cases. No discovery in medieine for the last hundred years will compare with it in its benefits to the race, in our opinion; and the name of one female physician, at least, will be immortalized by this medicine.

MONDAY, Jan. 28-P. M. There was scarcely a feature of the stock market this morning worthy of comment. The bidding was

very languid at the opening, and the tendency of prices was downward. Toward the close of the session. however, quotations were firmer, with but little animation. The movement in Pacific Mail was larger than usual, and the stock fell off to 841. The rumored sale of beats we alluded to yesterday, we now hear is the sale of those of the Puget Sound line, valued in the last statement at \$700,000, and now sold for \$225,000. Between the Boards the market was dull and firm, Pacific Mail going to 841, bid. At the Second Board the transactions were quite limited, but quotations were strongly maintained, and in many cases an advance was established. Pacific Mail, under small purchases, improved to 86. Rock Island was also buoyant, and sold up to 581. Illinois Central was I per cent better: Hudson River | per cent; Michigan Central and Toledo | per cent. After the Second Board there was a strong upward movement, based, it was rumored, on favorable dispatches from Wash ington; Central advanced to 801 bid, an improve ment of 1 per cent. Erie was also better selling at 361 # 364. The transactions were mainly contined to Central and Eric. There were very few stocks for sale, and the orders in the street could only be filled by advancing the bids. In the Bond market the transactions have been small, and in Southern State stocks at lower prices. The movements of these States, drifting as they are toward a condition of affairs under which the debts must be largely increased, are not calculated to inspire capitalists with confidence in their securities. At the close, the market was very firm at the following quotations: Tennessee 6s, 731 2774; Virginia State 6s, 752 276; Missouri State 6s, 68 29 F8]; Pacific Mail, 86 @864; New-York Central Railroad, 

235; Chicago and Rock faland Railroad, 581 3581 Chicago, Burlington and Quincy Railroad, 731 278; Illinois Central 7s, 95.

The Foreign Bill market is firm at 107 for best bankers' Sterling, but as yet there has been but little done for the Wednesday's steamer. The supply of commer-cial bills is not large, although five or six back mails from the South have arrived. The range of Sterling is

105 @ 107 W cent; Francs, 5.37 1 @ 5.27 4. Freights: To Liverpool, 150 bales Cotton at 12 13-32d.; 550 boxes Bacon at 35s.; 4,000 bbls. Flour at 2s. 6d.; K3,700 bush. Wheat at 12d. in bags; 50 tons Oil Cake and 25 hbds. Tallow on private terms; 13 turs Cloverseed at 37s. 6d. To London, 1,500 bbls. Flour at 4s.; 323 boxes Bacon at 45s., and 10 tuns Cloverseed at 47s. 6d. To Glasgow, \* steamer, 25 hhds. Tallow at 35s. A British brig to Cork and a marke with 20,000 bush. Corn at 14d. in bulk, and a bark of 310 tuns to Nantes with guano in bbls. at \$1 10 and 5 P cent. primage.

The business of the Sub-Treasury was: Total Re ceipts, \$445,849 90; for Customs, \$28,000; Payments, \$801,006 11; Balance, \$5,396,141 91.

Mr. Cisco has received from the Mint within the last wo days over \$1,100,000 in twenty dollar pieces. The notices of drafts from the Tressury Department on the Sub-Treasury here are to a large extent. The earnings the third week of January in the Chi-

£300,000 on board in specie. The specie list does not, however, add up quite as much. The commercial advices are not very important, but favorable. was selling to considerable extent at 1 a ld. advance, and breadstuffs had an upward tendency. The funds had been steady, but on the 15th they became dull and heavy, and Consols declined 1 P cent, closing at 91½ \$\pi\_2\$ for money, and 91½ \$\pi\_2\$ for account. The heaviness was caused by a report that the Bank of France was still losing gold, and that a further rise in the rate of discount there was contemplated. It was also said that the Bank of England was taking some considerable amounts of money on loans of stock. In the discount market there was no change. Good bills were negotiated at a fraction below the Bank rates. The Daily News says many persons believe the Bank of France will have great difficulty in maintaining specie payments. The Morning Chronicle says some arrangement had been made with exchange houses to transmit gold to America direct from London on French

account. The latest quotations for American Securities were: Closing Prices. Busine Maryland 5s. United States 5s, 1874.... ...er d. 85 @ 90

indicated yesterday, a large contraction of loans and deposits. The contraction of loans is not, however, in those of a commercial character, and the falling off in deposits results mainly from the payments into the Sub-Treasury. The loss of specie is much less than was generally anticipated, in view of the fact that the Sub-Treasury received \$3,600,000 during the Week. The banks hold to-day half a million more than the amount, shown by the average.

The following is a comparative statement of the condition of the banks of New-York City Jan. 19 and
